THE SPECULATIVE MARKETS.

The Most Remarkable Boom of the Year in Wheat.

BIG STAMPEDE TO THE BULL SIDE

Everybody Satisfied of a Short Crop in Europe and the Northwest-Corn and Oats Lower-Provisions Advance.

CHICAGO PRODUCE MARKET. CHICAGO, July 30 .- [Special Telegram to THE BEE.]-A 254c advance on top of Saturday's gain was what occurred in wheat today. The market was 11/011/6 higher and there was an immediate further advance of 14@14c on the curb, and 83%c was bid for September wheat. Owing to the excitement in the wheat pit the official reporter was slow in sending out a quotation which could represent the market at the opening, but he finally hit on 84c for September. But the hand on the indicator only rested a minute at that point. It shot around to 8414c in less than three minutes, December at the same time being quoted at 86c. From 84% for September the market worked back 1600 We with many violent minor fluctuations, September going to 83%c and De-cember to 85%c, resting awhile around this range. Then the market suddenly started up again on a cable to Field & Lindley that there had been a sensational advance in London and Liverpool late in the day of 1 @3s a quarter. The crowd went wild on this piece of news and ran the price of September to \$5@\$5\see and December to \$7c. This advance was not sales were 175,300 shares. held, as an immense amount of wheat came out on the advance on realizing orders and "stop profit" orders, if the terms may be used. The reaction was only 14c, and it did not take long for the hungry market to absorb the enormous offering and again harden. The closing range showed only a fractional shrinkage from the outside figures realized. The market was strong and buoyant from start to finish. "Soft spots" were delusive. At the start not one person in ten thought the over-night advance would be held, but it was not only held but added to, thus establishing what is in effect a continuous advance of 5c. It is the sensational boom of the year. The analyzation of the buying to-day is not difficult, nor are the causes leading to it obscure. For forty days rainy and cold weather, unfavorable to crops, has prevailed throughout the larger part of Europe and England. Of late it has dawned on the grain merchants of the old world that a calamity to the wheat crop was threatened and they have been changing front. Specu-lators were the last to turn, but they flopped, they are the last to turn, but they flopped, too, and there is considerable excitement abroad now, if dependence can be placed on the information furnished by correspondents of the best American houses. To add to the excitement at home and abroad it is now definitely known that the condition of spring wheat has suffered considerable depreciation from the condition existing two weeks ago, and that the prospects of even an average yield of spring wheat are not any too flattering. Not until the stock market began to feel the effect of the free marketing of railroad stocks bought on the anticipation of big crops in the northwest did the public take stock in the damage we did the public take stock in the damage re-ports from that section. Ream and Cudahy and a few others who have one hand on the and a few others who have one hand on the Wall street puise and the other on Chicago, were the quickest to appreciate the significance of the selling of stocks by railroad interests, and they were the quickest to change front on wheat and join foreigners who had been loading up for the previous two weeks on home news. To-day there was a scramble of belated bears to cover, and a scramble on the part of belated buils to get wheat before the market should get everlastingly away from them. The great public got into wheat

ull movement today. As on Saturday, the corn market started off just a little "gamey," with August selling up from 45c to 454c, September from 44%c to 454c, and October from 44%c to 44%c. The improvement was not maintained how-ever, and the market got back below the starting price and did not recover. Receipts were heavy and the movement promises to increase. Trade was of light volume com-

from them. The great public got into wheat today "with both feet." The condition of the market is not weakened by the confirmation in late public cables of the sensational private advices of a terrific spurt in wheat

and the flour market in London, Liverpool

and Paris. The delocalization of the crop shortage and the accompanying expansion of

speculation is the secret of the power of the

paratively.

Oats were only fairly active, and while the range of prices in the speculative market was confined within narrow limits, the general tendency was one of easiness. Most of the trading was in August, with September and May in fair request, while intermediate months were dull. The estimated receipts for to-morrow were fairly liberal and placed at 150 cars, while there was the same ab-sence of interest noted last week, with plenty of sellers of new crop deliveries. July was slow, and after the early weak opening closed about ic lower. There is evidently but small short interest and with the early advent of the new crop prices continue down-No. 2 cash oats in store were dull ound 281/c, and sales were chiefly by sam-

Provisions opened weak with no abatement in the bullish tendency that they have lately exhibited. Under the influence of another sharp advance in hogs initial sales all around were made at prices materially higher than Saturday's closings. In pork first transactions showed an appreciation of 1734c, in lard of 734@10c, and in short ribs of 100@ 1234c. During the day the product averaged much higher than opening figures. The range covered by pork in its fluctuations was 15c, by lard 7½@10c, and by short ribs 56@ 56c. Closings, as a rule, closely approxi-mated the outside figures, touched and showed an actual advance of 25c in pork, 1734c in lard and 15@1734c in short ribs.

CHICAGO LIVE STOCK

CHICAGO, July 30 .- | Special Telegram to THE BEE. !- CATTLE-Prime, dry fed natives or anything that could pass the keen eyes of buyers as good, sold right up to last week's prices, but it is the old, old story on common natives and Texans. Of the latter there were 13,000 in sight in various markets in the west-6,000 in Kansas City, 4,000 in Chicago, and 3,000 in St. Louis. So, with this number in sight, as a matter of course, everything in the way of common and undesirable natives had to follow the course of Texans, which was downward and how much off was hard to tell, as the values on such have been gradually going lower from day to day for the past week or ten days. There were no northern rangers among the early arrivals and none expected until to-morrow. Native cows and bulls sold lower, following the downturn on Texans, the latter always pushing the market when the latter always making the market when the run is heavy. There was little or nothing going in stockers and feeders, and there were going in stockers and feeders, and there were only a few veal calves among the arrivals of cattle. The shipments included 4,500 Texans, and medium to good steers, 1350 to 1500 lbs., \$5.10@5.90; 1200 to 1350 lbs, \$4.00@5.35; 950 to 1200 lbs, \$3.50@4.75; stockers and feeders, \$2.10@3.70; cows, bulls and mixed, lower at \$1.50@3.40; bulk, \$2.40@3.00. Texas cattle weak; steers, 950 to 1050 lbs, \$3.50@4.00; 750 to 900 lbs, \$2.80@3.40; cows, \$1.90@2.70.

Hogs—The demand was active and prices strong and 10c higher on light hogs and a good 5c higher on mixed and heavy. Best assorted heavy made \$6.60@6.65, and mixed \$6.40@6.60. Light sorts made \$6.60@6.75, only two lots selling at \$6.75.

FINANCIAL. NEW YORK, July 30 .- [Special Telegram to THE BEE.]-STOCKS -The slump in the grangers Saturday caused a decided change in sentiment among home traders and the majority were bearish. Reports from the northwest were not favorable for spring wheat, and induced free realizing by large numbers of bulls. Many of the latter also took the short side for a change. London came in strong but had no effect, as Saratoga

sent in large selling orders, especially for St. Paul. The general stock market opened quiet to heavy, with first prices quite irregular. Considerable weakness developed immediately among active stocks, especially in St. Paul, Reading, Union Pacific and Northwestern, which were most conspicuous. During the first half hour's trading St. Paul declined ½, New England, Reading, Lackawanna and Northwestern following with % per cent each and the rest of the list with smaller losses. The decline was accompanied by a moderate degree of animation, but the market afterward reacted slightly and became dull. The weakness soon reappeared, however, and still lower prices were reached in many of the leading stocks. Later a stronger feeling developed, and most of the losses were regained. The outlook for the coal roads is regarded as the best for years, and their friends are outspoken in their belief that they will sell higher. Among grangers the feeling is unsettled. Spring wheat and corn has not been secured and operators are suspicious that something may happen to mar the prospects for a good business the coming fall and winter. It was reported that S. V. White, and Bateman and Cammach had joined forces and intended trading in Lackawanna. If they sold any stock they failed to affect the market more than temporarily, as it moved upwards toward the finish and closed 1/4 better than Saturday's. Duliness prevailed in all but a few active stocks after midday, but the feeling was strong and the bears not disposed to fight the advance. Prices were gradually marked up, last sales being at about the outside and recorded net gains of 24@1 points. St. Paul, Union Pacific, and East Tennessee were the leaders. North western gained ¾, Western Union ¾, Missouri Pacific ¾, and Lake Shore ¼. Pacific

OMAHA LIVE STOCK.

Cattle.

Monday, July 30, 1899. The market opened very duli and slow and comparatively no business was transacted during the forenoon. There was a strong demand for good corn-fed cattle, but there was not a load in the yards, the bulk of the receipts being range steers. In the afternoon there was more life to the trade and the greater part of the cattle were sold and at steady prices.

Hogs.

It has been a long time since the receipts of hors have been as light as to-day. There was a good demand, and what few hogs there were sold quickly. Heavy weights sold at an advance of 5c, and light weights at an ad-

There were two loads of westerns here and
